

Occupational Therapy Education Sessions

For Tasmanian Occupational Therapists

We have several upcoming education sessions we invite you to attend. Firstly, we have the final recurring session on 'Placement Information' for those occupational therapists wanting to supervise students on placement and understand more about the placement opportunities within the OT course. Secondly, we have two opportunities to learn about the tool used to assess students on their first foundational placement – EFPC. To keep up to date, go to the University PEP webpage for supervisors: utas.edu.au/health/professional-experience-placement/supervisors

Upcoming Sessions:

OT Placement Information

Friday, 1 August, 12.30–1.30pm
utas.zoom.us/j/84868753954
