

Our whole island is your campus

Undergraduate Course Guide 2026

SECOND EDITION

We acknowledge the Palawa/Pakana peoples of Lutruwita (Tasmania) and the Gadigal people of Sydney, the traditional owners, and custodians of the land upon which we live and work. We pay respects to Elders past and present as the knowledge holders and sharers. We honour their strong culture and knowledge as vital to the self-determination, wellbeing, and strength of the community. We stand for a future that profoundly respects and acknowledges Aboriginal perspectives, culture, language, and history.

Your journey starts here

Tasmania is a place filled with creativity, industry, nature, and adventure.

Because we're the only university in the state, you get close access to the industry leaders, artists, and deep thinkers who are shaping our island. That means learning alongside the very best so you can hone your skills for a successful career.

Our class sizes and committed staff mean you're always more than a number. We'll give you the personalised attention and support that you need to thrive.

Our whole island is your campus

When you're in one of the world's most amazing places, you need to get outside, explore, and live while you learn.

Whatever you're passionate about, we'll give you a hands-on education and an unforgettable adventure.

In the natural and social sciences, our island becomes your living laboratory. In health, you'll travel the state and apply your learning to real-life scenarios. In engineering and design, you'll access cutting-edge facilities and technology.

Our courses put you alongside key decision makers in government, industry, and the community. You'll help yourself and future generations to create a better tomorrow.

You'll also find yourself at the heart of a creative revolution. Working on real briefs and projects, you'll connect and collaborate with the acclaimed artists, performers, and creatives that are drawn here.

Flexible study options

Whether you want to kick-start your career, pick up a new skill, or tackle a lifelong passion, we have a flexible course for you. You can study part-time, online, or however fits your lifestyle and commitments. You might want to study a double degree, study a short course, or graduate job-ready in just two years with an accelerated degree. University is an exciting journey, and we're here to help you every step of the way.

A great student lifestyle

There's no place in the world quite like Tasmania. Living on our island, you can go from the world's wildest art festivals to World Heritage areas – all in the same day.

Our campuses put you right in the heart of beautiful, charming cities that are rich in heritage. No matter where you study, you'll become a member of a creative, diverse, and welcoming community.

◀ Science students measuring trees, Hollybank Reserve.

Experience Tasmania

Give your future a fresh perspective.

When you choose to live and study in Tasmania, you get to take advantage of living in one of the most beautiful places in the world, and enjoying everything our remarkable island has to offer.

You've probably heard that we have the cleanest air in the world, natural beauty everywhere, amazing produce and culture, and a laid-back way of life. Well, it's all true.

If outdoor adventures and hobbies are your thing, you have absolutely found yourself in the perfect place. We are world-renowned for our incredible landscape and natural places. Whether you like bushwalking, camping, rock climbing, surfing, sailing, diving, mountain biking or stargazing, we have something for every outdoor enthusiast.

And if food is more your thing, Tasmania is a foodie's paradise: world-famous wines, whiskies, cheeses, seafood, berries, fruit, and produce farmed in the purest corner of the entire country.

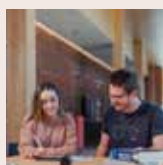

Tasmania is also buzzing with cultural activity. Between our iconic galleries and museums, unique festivals, thriving artistic community and vibrant live music scene, we really are the state of the arts.

There is a more relaxed pace of life here. Even in our busy urban areas, you're never more than a few minutes away from a peaceful park, river or beach, so our natural environment is always close by.

Our commitment to sustainability

By choosing to study with us, you'll become part of the world's leading university on climate action.

For many years our university has been working hard to bring people together and deliver more sustainable outcomes for Tasmania, and from Tasmania to the world.

We know that our mission is pressing.

We are working for a climate-positive society and circular economy where quality of life guides our choices and we are actively tackling inequality. Hone your skills to lead an impactful life, and learn how to make a difference in your local community and globally.

Having adopted the United Nations Sustainable Development Goals, we see sustainability as an opportunity across everything we do and are passionate about the role you can play as a student.

What you study matters, and there are many ways you can get involved.

Sustainability Tracking, Assessment & Rating System (STARS)

Learn and apply your skills in sustainability

Add a major in Sustainability to your degree

Integrating the physical, humanities and social sciences, the major in Sustainability supports you to become a change agent for sustainable and just futures in a wide variety of professional contexts. You can study sustainability as a second major in any bachelor's degree with sufficient elective space.

Sustainability Integration Program for Students

SIPS is our award-winning and globally recognised student engagement program which allows you to apply your study to real-world sustainability challenges and be paid or gain course credit for your work.

Sustainability Placement Experience (SPE301)

Immerse yourself in real-world sustainability by engaging in a sustainability-based placement experience. You will be presented with dynamic sustainability opportunities where you will apply your skills, knowledge and University studies to engage with industry and community led projects and participate in real-world sustainability solutions.

Study Sustainable Living anytime, anywhere

Develop the skills to make a difference at home or the workplace while exploring your passion for sustainability.

Our Diploma of Sustainable Living is available fully online.

Green Impact Program

Take practical action to improve the sustainability of your campus, collaborate with students from different courses and engage in creative activities with an element of friendly competition through the Green Impact Program.

Join a club or society

The Tasmanian University Student Association (TUSA) has many sustainability-focused clubs and societies. Join the Australian Youth Climate Coalition, Environment Society, Tasmanian Students Landcare Association and more – or start your own.

Other ways to get involved

Whether you join us at regular events or have your say in our biennial Student Sustainability Survey, there are many opportunities get involved in sustainably.

TIMES HIGHER EDUCATION IMPACT RANKINGS 2025

Uni life in Tasmania

There's much more to university than studying. That's why we encourage you to go beyond the classroom and take part in all the social opportunities we have on offer. Each campus is home to a thriving student community, with lots of events and social opportunities to engage with.

Choosing your campus

Our university has campuses in the three distinct regions of Tasmania: Hobart in the south, Launceston in the north, and Burnie in the north-west. We also have a specialised nursing and paramedicine campus in Sydney.

Each campus is home to a thriving student community, with loads of events and social opportunities.

Explore our campuses on page 13.

Living on campus

Our residential colleges are a great way to immerse yourself in Tasmanian culture, build lifelong friends and make cherished memories.

For many students, studying at university is their first time living independently away from home. The residential colleges provide you with a supportive environment where you can thrive emotionally, academically and socially.

With a range of college options and residential experiences, you can live in the heart of the cities or a short walk from campus.

Explore our college options on page 15.

Making friends

Having a strong support network while you're at university makes a big difference. There are plenty of ways you can meet people and make new friends.

Studying in Tasmania, you can take part in social events, off-campus trips, travel opportunities, campus tours, and much more. To get even closer to your community and make new friends, download the UniApp from your app store. It's a great way to connect with people – and it's got lots of great features that will enrich your uni experience.

Visit utas.edu.au/uni-life and utas.edu.au/student-events

Clubs and Societies

Whether it's music, bushwalking, or sports, our student societies cover all kinds of interests. It's a great way to meet and connect with like-minded people.

At the start of each semester we have Clubs and Societies Day where you can find out more about what each club and society has to offer.

Visit tusa.org.au

Support and wellbeing

Study can sometimes be stressful, but we're here to help. Our support services include health and wellbeing, study skills development, career guidance, and more.

Visit utas.edu.au/support

Exploring Tasmania

No matter where you study in Tasmania, you'll have easy access to incredible World Heritage areas. You can explore our vibrant cities, which are small enough to feel comfortable in, but big enough to always have something new to discover – whether it's a restaurant, boutique store, or art festival.

Explore more utas.edu.au/experience-tasmania

Sport and recreation

Looking to try something new and meet people? Campus Sport is your next move. We offer free social sports for students and staff in Hobart and Launceston. Whether you're a student or staff member, our sports community is open to everyone. Explore new sports, make connections, and become part of university life.

Social Sessions

Drop in anytime for free social sports like soccer, basketball, and tennis. It's a fun, laid-back way to stay active and meet new friends.

Social Rosters

Join a team and enjoy regular matches in sports like basketball, netball, and futsal. It's a great way to stay active and build friendships.

Come and Try Sessions

Perfect for all skill levels, these sessions let you explore new sports and meet people. With over 12 sports and 50+ sessions, there's something for everyone.

HYPE Program

Open to all students, our HYPE program promotes your wellbeing through a variety of physical activities at reduced rates. In 2024, the program offered activities like rock climbing, surfing, sailing, paintball, and self defence. Whether you're up for trying something new or just want to meet new people, this program is perfect for building your confidence and making new friends.

Marine Science PhD student Yuxin Wang said: "I have made many friends through activities organised by the University and Student Living. Most of them are free and they give me opportunities to step out of comfort zone, meet more people, go to more spots I've never experienced."

For more information, contact utas.sport@utas.edu.au

UniSport Nationals

UniSport Nationals is your chance to compete against the best university athletes from across Australia. This is the pinnacle of university sport, bringing together thousands of participants from 42 universities to compete in a variety of national-level sports.

The Nationals include the main event, UniSport Nationals, plus several standalone championships throughout the year, including the Indigenous Games, 3x3 basketball, athletics, cricket and triathlon.

For more information or to register your interest, visit utas.edu.au/unisport-nationals

Available Sports Scholarships

If you're a student dedicated to achieving your goals in both sports and academia, we have scholarships that recognise and support your efforts.

University of Tasmania Elite Sports Scholarship

Our University of Tasmania Elite Sports Scholarship is designed to support outstanding student-athletes by providing a \$2,000 cash incentive, a 12-month Unigym membership, and the chance to represent us at UniSport events. It is available to new and current students, with special awards for Tasmanian students, Aboriginal or Torres Strait Islander students, Para athletes, and emerging athletes.

These scholarships are here to help you excel both academically and athletically while studying with us.

Learn more at utas.edu.au/scholarships

"Balancing my academic commitments with my athletic training and competition schedule has been both challenging and rewarding. If I struggled with something, I made sure to connect with the right people for support. It was also my first year with the Australian Sailing Squad, and the sense of camaraderie, teamwork, and the overall atmosphere at the event is something I'll always cherish. That experience was a defining moment for me, both personally and professionally."

Dervla Duggan
Elite Sailing Athlete

► Get involved across various sporting events and competitions through Campus Sport.

Explore our campuses

Tasmania is a very special place. Studying here, you can immerse yourself in a vibrant city lifestyle with World Heritage areas right on your doorstep.

Our campuses make the most of each region's strengths, which means your learning is informed by the place you live. We're also building exciting new campuses and spaces to connect you with industry and community.

Learn more at utas.edu.au/campuses

Hobart

Hobart is a perfect slice of urban living on the edge of pristine World Heritage areas. Study in the heart of the city, on the harbour, or by the beach.

Our beachside Sandy Bay campus is located 10 to 15 minutes south of the city centre.

Located on Hobart's waterfront, our Institute for Marine and Antarctic Studies (IMAS) combines strengths in marine and Antarctic science in one precinct, offering opportunities for collaborative research of local, national and international significance.

The building provides world-class teaching and research facilities for around 300 students and staff.

In the heart of the Hobart CBD, next to the Royal Hobart Hospital, The Medical Science Precinct (MSP) houses teaching and research facilities for our Menzies Institute for Medical Research and our health disciplines. Our Hobart campuses also include the Hedberg building. This cutting-edge facility provides a learning space for music and creative arts students unlike anywhere else in the country.

Hobart students can also access our free student bus, UniHopper, to travel between our inner-city locations and facilities.

In the coming years, we're planning an exciting move to Hobart City. This will be a vibrant, contemporary learning space that blends university and city living.

Providing a great education to as many people as possible is at the heart of everything we do. Our future Hobart City campus will create more access and new opportunities for generations to come.

▲ Aerial view of the Phillip Smith Centre, Hobart.

Launceston

Tasmania's second-largest city, Launceston is home to our new campus at Inveresk. With award-winning facilities including our library, River's Edge, The Workshop and The Shed, Inveresk campus is a 10-minute walk from the city and a 30-minute walk from the incredible Cataract Gorge. Inveresk is part of a community precinct alongside the Queen Victoria Museum and Art Gallery and the city's major sports stadium where you can enjoy AFL, cricket and music events.

Overlooking Laykila/North Esk River, you'll enjoy learning and socialising both in the classroom and out. Enjoy the Community Food Garden, Esk Activity Space, Riawunna Garden and University Square, plus convenient bike storage, showers and lockers, café and plenty of individual and group study spaces.

North of Inveresk, our Newnham campus is relaxed and spacious. It includes hands-on facilities for the Australian Maritime College (AMC), research spaces for the Tasmanian Institute of Agriculture (TIA), Centre for Sustainable Architecture in Wood (CSAW) and Australian Forest and Wood Innovations (AFWI).

Cradle Coast

Our Cradle Coast campus offers modern, world-class facilities on Burnie's spectacular waterfront – where little penguins are regular visitors, and whales have been spotted from our classrooms.

Here, you'll become part of a vibrant community while being immersed in flexible, hands-on learning experiences unique to the north-west. You'll be studying within walking distance of the beach, CBD, and modern student accommodation. Our renowned learning centres in this region include the Tasmanian Institute of Agriculture (TIA), Rural Clinical School, and Makers Technology and Innovation Hub.

Cradle Coast will be your gateway to temperate rainforests, World Heritage area walks, tasting trails, the arts, and deep cultural experiences. All against the backdrop of one of the most beautiful stretches of coastline in the world.

Sydney

Our Sydney campus offers courses in nursing and paramedicine. Our close partnerships with a range of NSW Local Health Districts, St Vincent's Hospital, NSW Ambulance, and other private healthcare providers give you a range of valuable hands-on work placement opportunities.

▲ The Shed, Inveresk campus, Launceston. ▲ West Park, Cradle Coast campus, Burnie.
► Rozelle campus, Sydney.

Living on campus

Join one of our vibrant residential colleges living near or on campus. You'll make friends and share an amazing lifestyle.

Our residential colleges have accommodation to suit every student's needs, from self-contained apartments to single rooms with shared kitchen facilities. We also offer plenty of financial support to keep your rental costs affordable. This gives you access to a community designed to support your academic, social, and wellbeing needs – all on a student's budget.

Find your home on campus

Hytten Hall, which incorporates Hobart Apartments, is our college in the Hobart CBD. A mix of self-contained studios and shared apartments, they're a short walk to our city campuses.

Christ College and St John Fisher College, which incorporate University Apartments, are located in Sandy Bay. They offer single rooms with shared facilities and six-bedroom flats.

Jane Franklin Hall is a fully catered residential college that is affiliated with the University of Tasmania, but is operated independently. If you would like to live at Jane you will need to contact them directly to make an application.

Our West Park Apartments are steps away from our Cradle Coast campus in Burnie. These apartments are self-contained with their own kitchen, bathroom and study space. The Apartments are a short walk from the Unigym and the Burnie CBD, and the Rural Clinical School is a 6 minute drive away.

Investigator Hall, which incorporates the Newnham Apartments, offers single rooms with shared facilities and self-contained studio apartments. Investigator is located on the spacious 50-hectare Newnham campus, right next door to the Australian Maritime College overlooking the stunning Kanamaluka/Tamar River.

Inveresk Apartments is located near the inner city on the Inveresk campus and offers self-contained studio apartments alongside the Queen Victoria Museum and Art Gallery.

Learn more at utas.edu.au/accommodation

Cost and scholarship opportunities

Moving can be expensive, but we're here to make it easier and more affordable. Relocation bursaries may be available, depending on your individual circumstances. These help to cover the costs associated with moving.

Learn more about scholarships on page 18.

Jump into uni life

Living on campus in one of our residential colleges is a great complement to your academic success. Our colleges offer events and programs ranging from intercollegiate sports competitions, formal and ceremonial dinners, arts and music competitions, social events and various academic supports.

We have Student Clubs to create opportunities for you to make new friends, be supported by your peers and get involved in college and campus life. There are also programs to support your learning and study.

Our colleges are led by a team of Deans of Students and Residential Communities Officers who will help you settle in and make sure you are traveling well across your time at the University.

Joining one of our colleges is to become a member of a proud tradition that reaches all the way back to the founding of the University.

How to apply

Applying to one of our residential colleges is easy and can be done online. To get started, head to utas.edu.au/accommodation and create an account.

"I'm the first person on both sides of my family to go to uni. I especially wanted to study in Burnie and that was a really big part of the decision – being able to stay close to family here and home."

Iris Cartwright

Second year Bachelor of Pharmacy Student

Don't let costs get in your way

Our scholarships and financial support

University is a life-changing experience that should be open to everyone. We won't let anything get in your way.

Through our Support to Study Scholarship package, you may receive up to \$5000 to support your studies, with additional allowances available based on your individual needs and eligibility.

Easy access to scholarships

We have hundreds of scholarships across all areas of study. They can provide you with financial support, help with moving from home, or recognition for your achievements.

Best of all, scholarships give you peace of mind and let you to make the most of your time studying.

Study area

Scholarships relating to your chosen area of study.

High achiever

Merit based scholarships recognising your academic achievement.

Diversity

Scholarships enabling students from diverse backgrounds to study.

Sport

Scholarships supporting elite athletes and excellence in sport.

Access

Designed to help students who face barriers to higher education.

Relocation

For students who need to move away from their usual place of residence to pursue higher education.

utas.edu.au/scholarships

Pay for uni later with a HELP loan

Many of the things we buy in life, like cars and houses, are paid off gradually. Paying for a degree is no different.

As an Australian student, you can study with a HELP loan. This means that the Government pays for your education and you don't need to pay it back until you're earning a good salary.

Learn more at utas.edu.au/hecs-help

How Support to Study helped Julian

Growing up on the North West Coast, Julian always wanted to be a marine biologist. But the cost of relocating and accommodation was a barrier to that dream.

After securing the Support to Study Scholarship Package, Julian could afford to relocate to Hobart, and received accommodation support. He's now studying an undergraduate degree at the Institute for Marine and Antarctic Studies.

For Julian, the Support to Study package made a massive difference to his academic success. Without financial pressure, he can now focus on and excel in his learning.

The best part is that this package helps students who have the potential to succeed at uni. You don't need to have a high ATAR or to have participated in higher education before.

utas.edu.au/support-to-study

How Fine Arts Honours student Maureen pursued her passion

Mature age student Maureen wanted to pursue her degree in fine arts with us. To help support her studies, she applied for the Joyce Criston Memorial Scholarship and the Southern Lights Access Scholarship. "I have always felt supported with my university journey, even with other challenges I face such as adult ADHD and dyslexia."

Having the support of her lecturers and being able to experience everything university life has to offer meant that Maureen was able to focus on her undergraduate studies, and nurture her creativity in a safe space. Maureen has now graduated from the Bachelor of Fine Arts and is embarking on her Honours. "I have a real hunger for learning thanks to the University of Tasmania and I feel I have gained invaluable life experiences and friendships along the way."

Get the support you need

If you need academic advice or personal support, we're here to help you. Here are some of the ways we support you as a student.

Get help with your studies

As a student, you'll have access to all kinds of support services and resources.

Student Advisers

Our Student Advisers can help you with course and enrolment advice, adjusting to university life, time management skills, and personal issues affecting your studies. They offer appointments in person, by phone, or online via Zoom.

Learning Advisers

Our Learning Advisers can work with you to develop your academic skills and study strategies. We provide support with assignment skills, including analysing assessment tasks, reading and note-taking, academic writing, language and style, and general study strategies such as exam preparation, time management and personalised strategies for specific learning challenges.

Peer Assisted Study Sessions (PASS)

These timetabled study sessions are led by student mentors and can help you improve your grades.

Learning workshops and webinars

The Study Toolkit provides a self-paced online resource to help improve your study skills, academic reading and writing, numeracy, and research and referencing.

24 Hour Study Support

Our service allows you to access study support in real time. You can submit your assignment for feedback and talk to a subject expert when you need it the most.

utas.edu.au/study-support

UConnect

This key frontline team can help you understand, navigate, and access information and services when you need it.

Access to our online Student Portal

Our online Student Portal makes it easy to find the information you need. From study support to counselling, career guidance, and University news, you'll gain access to a personalised Student Portal and UniApp.

▲ Psychology students in study group, Inveresk campus.

Health and wellbeing support

We offer a range of student health and wellbeing services. These include:

Counselling

Studying with us gives you free access to confidential and professional counselling. Counsellors can help you achieve your best by building a deeper understanding of yourself and the things that are getting in your way. They can also support you to implement strategies to succeed. Plus, you can access wellbeing sessions and information to help you get the most out of your time with us.

For more information on support and wellbeing, please visit utas.edu.au/counselling-support

Accessibility support

We provide practical assistance and support for any student with a disability and/or health condition (including mental health). Together, we'll ensure that you meet your learning needs.

utas.edu.au/support

A safe and diverse culture

We're committed to creating a culture that's safe, promotes equality and values diversity. Respecting and maintaining the rights and dignity of our staff and students is our highest priority.

utas.edu.au/diversity

Religious support

We welcome people of all faiths and spiritualities. We have a diversity of faiths within the community, with pastoral carers based at both the Hobart and Launceston campuses.

The University can help connect you to local religious and cultural groups and organisations.

There are also prayer rooms on the Sandy Bay and Newnham campuses for Muslim students and staff.

Safe and Fair Community Unit

The Safe and Fair Community Unit is a university-wide service providing information, support and advice to keep everyone safe and well.

utas.edu.au/safe

LGBTIQA+ support

We are working towards creating an inclusive University where all of us, no matter how we identify, feel valued, respected, and safe. We have a range of supports available for LGBTIQA+ students.

utas.edu.au/lgbtqi

Childcare and parenting facilities

We support students who are also parents through our range of services and facilities available at our campuses.

utas.edu.au/campuses

Employability support, experiences, and resources

You'll be supported throughout your time at the University. We'll provide you with resources, events and a jobs portal that will help you find jobs while you're studying and connect you with future employers. We also offer a range of work-integrated learning, professional placement, leadership, and volunteering experiences. These include programs with businesses and industry that help you gain valuable skills and experience as you study.

utas.edu.au/study-support

Leadership and volunteering

We can help you develop your leadership skills and make unique connections. You can volunteer, become a student representative, or gain experience through a student leadership role.

utas.edu.au/leadership-and-volunteering

"My enrolment at the University of Tasmania was very smooth. I actually changed my degree from business to psychology just a week before classes started, but thanks to the student advisors and UConnect, the transition was seamless. Their guidance and support made the process hassle-and stress-free."

Faith Tekavei

Bachelor of Psychological Science Student

Support for Aboriginal and Torres Strait Islander students

Riawunna provides a welcoming space and assists with academic and cultural support for Aboriginal and Torres Strait Islander students.

Aboriginal Student Advisers

Riawunna Aboriginal Student Advisers work to ensure a positive experience for Aboriginal and Torres Strait Islander students at every stage of their University journey.

The range of support that we offer includes tutorial support, assistance when applying for scholarships, making referrals, and cultural and social supports.

Riawunna Academic Assistance Program

Riawunna Academic Assistance Program supports Aboriginal and Torres Strait Islander students with academic supports and guidance while studying. You'll be matched with a tutor who can assist you with your relevant study needs.

murina Program

Riawunna's murina Program is a supportive program that provides Aboriginal and Torres Strait Islander students with a pathway designed to build academic skills and confidence within an Aboriginal framework, and offers units covering culture, history, storytelling, and study skills, as well as on-Country experiences.

The murina Program is offered on the Sandy Bay, Inveresk, and Cradle Coast campuses via online, face-to-face classes, and on-Country experiences.

Learn more at utas.edu.au/pathways

Riawunna Community Program

Riawunna's Community Program hosts a range of cultural activities and events with the University and Aboriginal community to strengthen the connections of people, place, and culture — this includes hosting activities and events both on campus and/or on-Country.

Facilities

The Riawunna Centre for Aboriginal Education provides a culturally safe space to relax, connect, and learn. We provide facilities that include a community room, study spaces, and a place for ceremony, which includes a fire pit and cultural garden. The Riawunna team warmly invites Aboriginal and Torres Strait Islander students and community to our campus sites at Inveresk, Sandy Bay, and Cradle Coast.

Learn more at utas.edu.au/riawunna

Aboriginal Scholarships and Bursaries

Riawunna provides several scholarships and bursaries which are offered in a wide range of disciplines and selection is based on academic merit and/or financial need. Riawunna provides scholarship information sessions each semester to assist students wishing to apply for scholarships or bursaries

Learn more at utas.edu.au/riawunna-scholarships

Learning abroad

For many students, university and travel go hand in hand. Get in touch with the Learning Abroad team today to learn about our exciting range of global programs.

With an overseas exchange program, you can enjoy the best of both worlds. You get to soak up the pristine nature and unique lifestyle of Tasmania while immersing yourself in some of the world's most vibrant and exciting cities.

Our exchange program allows you to spend up to one year of your degree studying overseas at one of our 140 global exchange partners throughout Europe, North America, and Asia.

Tuition fees at the host university are waived, and all studies undertaken are recognised as part of your degree.

A range of scholarships and other financial assistance are available to help cover in-country costs, such as flights and accommodation. Plus, our team of dedicated staff will be there to support you every step of the way.

Join the UniGo program (page 19) for 4-week experiences across the Asia Pacific! Some degrees also offer 2 to 6-week international programs tailored to your field of study. Whether it's cultural immersion, academic enrichment, or professional development, the Learning Abroad team has something for everyone.

Find out where your degree can take you.
utas.edu.au/outbound

▼ With an overseas exchange program, you can enjoy the best of both worlds.

Extra learning opportunities

At the University of Tasmania, we like to reward hard work and passion. That's why we offer a range of exciting programs for high-achieving students, as well as anyone who wants to get a taste of uni while they're still in school. These add unforgettable experiences to your time studying with us – even when you're still in year 11 and 12.

Study with us in year 11 and 12

Through our University Connections Program (UCP), you can study units with us while you're in a Tasmanian school. This program offers a great introduction to university and the units have no HECS fees.

Some units can even contribute to your TCE and be included in your ATAR. They can also provide credit towards your future course.

Learn more at utas.edu.au/ucp

Our High Achiever Program (HAP) is another great way to get a head start on university. You get to experience what it's like to study with us, while completing units that can be counted towards your future course. These units will also contribute towards your TCE and can be included in your ATAR.

HAP opens up special courses, discounted fees, scholarships and more. You'll also get to make the most of our incredible facilities, teaching staff and support services. The units you study under the program have no HECS fees.

Learn more at utas.edu.au/hap

Add to your uni experience

Want to combine your degree with overseas trips, summer research programs, scholarships, and special events? Our Catalyst Program offers high-achieving students all this and more.

To check whether a course has a Catalyst Program, look for this symbol  throughout the guide.

Learn more at utas.edu.au/catalyst

Work integrated learning opportunities

We are here to give you a hands-on education and an unforgettable adventure with our work integrated learning (WIL) opportunities. Jump start your career and develop skills that are in demand while building valuable networks to help refine your professional goals.

Unlock your potential with an Honours degree

Continuing your studies with an Honours degree allows you to dive deeper into a subject you love, conducting advanced research and gaining specialised knowledge that will set you apart. You'll develop critical employability skills such as analytical thinking, project management, and effective communication. Our Honours courses are designed to bridge the gap between academic excellence and professional success, preparing you to make a meaningful impact in your chosen field. An Honours degree is also your best pathway to a PhD or Masters by Research.

University Global Opportunity Program (UniGO)

Explore the connections between place, culture, technology and sustainability in a 25-credit point elective unit offered over the summer break. UniGO students travel to Indonesia, Malaysia or Vietnam in a 4-week immersive study experience centred on sustainability, building Asia-literacy and language learning in the Indo-Pacific. You'll learn about and visit a diverse range of sustainability initiatives, engaging with partner universities, industry, policy makers, and community groups. We pay for your flights, accommodation, visas, insurance, meals, travel vaccinations, and provide additional financial support to eligible students.

Applications now open.

For more information visit utas.edu.au/unigo

"UniGO provided me with a variety of experiences while I was in-country, all of which facilitated cross-cultural learning and awareness. We were able to be involved in a number of activities that dealt with different aspects of culture, including that of religion, family values, local and traditional cuisine, art, history, and environmental issues."

UniGO Malaysia Alumni 2024

Pathways to your future

University is for everyone, and we all take different paths to get there. Our programs will give you the experience, skills, and confidence to take the next step.

Making uni accessible to everyone

Studying at university should always be an option, no matter your background. Our pathway programs are here to support each and every student journey.

We offer a range of courses, as well as short foundation programs. They're designed to give you access to undergraduate courses by equipping you with the skills and knowledge you need to succeed.

These programs are available to study in-person at our Cradle Coast, Hobart or Launceston campuses and online. From school leavers to career changers, there is something for everyone.

If you have an idea about the course you'd like to study with us and want a more supportive approach, we have alternate pathways into further study for you.

You can choose from pathways that match the degree you're thinking of studying. These include arts, business, education, engineering, health science, nursing, paramedicine, pharmacy, psychology, science, and social work.

Alternate pathways into further study

The University offers fee-free and specific pathways into degrees, with programs designed to develop and consolidate your skills to undertake further study options. Pathways into University range from a general academic skills-based course to programs that lead to a specific degree you would like to do. We'll help you adjust to life as a university student so that you feel confident with the path you've chosen.

What you'll learn:

- Understand yourself as a university learner through a strength-based approach
- Key skills such as essay writing, referencing, group work and presentations
- Build your numeracy and science skills
- Experience university life and culture
- Effectively communicate and collaborate with a range of people

Open to everyone 17 and over, our pathways options provide an alternative entry into university. Upon successful completion, you'll meet the General Entry Requirements (GER) for further study at the University of Tasmania.

"I'm grateful for the UPP and DUS programs at the University of Tasmania that have significantly impacted my academic journey. Coming from a non-English speaking background without formal education, I first enrolled in an English language program in Tasmania. Discovering the UPP programs at this university offered me a unique opportunity. Though initially challenging, the exceptional guidance from my lecturers boosted my confidence and enhanced my language skills. After completing the UPP program, I pursued a DUS in Health Science and have just successfully graduated from a Bachelor of Medical Research with a minor in neuroscience here at UTAS in 2024. Additionally, I have accepted a place in the Bachelor of Medical Science and Doctor of Medicine in 2025. My dream of becoming a doctor, which I've held since age five, is in reach."

Hamidah Ibrahim
Pathways graduate

Unlock your future with an early university offer

Our Schools Recommendation Program

We believe in your potential, which is why we offer our Schools Recommendation Program – created to help you step into your university future with confidence. By applying through this program, you can secure an early offer of a place at university before finishing year 12. This program frees you up to focus on what really matters: excelling in your studies and reaching your goals.

Your entry to university will be based on more than just a number. We recognise your commitment to learning, your determination to pursue your passion, and your demonstrated talents.

Year 12 students can apply for up to five courses. With options including double degrees, undergraduate degrees, and pathway programs, you can map out the rest of your academic journey with certainty and flexibility.

Here's how it works:

- Use this guide to find the course that interests you
- Submit your application from 26 June
- After mid-year assessments, your school will complete the recommendation
- You'll receive an offer once the recommendation is received from your school
- You can accept multiple offers, and enrol from mid-December.

Paramedicine and Medicine aren't part of this program, due to competitive entry. However, you can still include them in your early application, and they'll be assessed after your ATAR is released. Early offers may still be made for your other course preferences.

No matter where you're at, we've got your back. If you don't receive an offer for your dream course through the program, don't worry. You'll be assessed again after your ATAR is released. If you don't receive an offer through the program or your ATAR, we also offer pathway programs as another entryway to uni study.

KEY DATES FOR YEAR 12 STUDENTS

Get your applications in by the 28 July to be eligible for a first round offer.

Applications open
26 June

Round 1 applications close
28 July

Round 1 offers released
4 September

Enrolments open
17 December

Applications can be submitted until 4 October, and offers will continue to be released in rounds, up until 30 October 2025.

Round 2 offers released
25 September

Applications close
4 October

Final round offers released
30 October

Not a year 12 student? Applying to study with us is easy and free. Learn more at utas.edu.au/apply

"The Schools Recommendation Program is honestly such a life saver; it's a foot in the door to university. It's there for students who might not always excel in pre-tertiary exam subjects, it is supportive and it is in place to help students get into university."

Allira Lynd Williams

First year student who was accepted into the Bachelor of Business, Bachelor of Arts, and Bachelor of Laws with an early university offer

School Leaver Expo

Helping year 11 and 12 students find their path to uni.

Our School Leaver Expos are a great way to explore our courses and get a feel for uni life. Our friendly students and teaching staff will be there to answer your questions about study, scholarships, and more.

If you need help, we can guide you through your application and the Schools Recommendation Program and how you could receive an early university offer.

We hope that you, your friends, and your family will join us.

Getting started at uni

Our team is here to take all the stress out of starting uni. We've designed a range of programs to make your transition smooth, including orientation, study groups, workshops, and fun social events.

Enrolment sessions

Attending an enrolment session is a great way to prepare for university. These help you with the administrative parts of studying, including enrolling in units, choosing your timetable, understanding fees, and learning about the online systems you'll use.

These sessions begin from mid-November, and you will be notified via email. Sessions can be conducted online or in-person, with one-on-one options available with our team.

UniStart

UniStart is an online unit that introduces you to our systems, support services and communities. It is also a great chance to learn how to use our online learning system, MyLO. You can try the discussion forums, do a quiz, and learn how to navigate in the system. It is also the place where you will find recordings of live orientation sessions if you aren't able to make it in real time.

Student Advice

We have student advisers who specialise in a range of different areas to help you get started, including course-specific student advice, learning advice, accessibility specialists, and Aboriginal and Torres Strait Islander Advisers.

Orientation

Orientation is an important part of your uni journey. You'll connect with other students, explore your new learning environments, and learn about all the support services available to you.

Before your study period commences, you can take part in a variety of events, activities, and information sessions to get started.

Learn more at utas.edu.au/starting-uni

The language of university

For new students, it might seem like university has its own language. But don't worry. It's easy to translate.

Bachelor's degree

Three to seven years

A qualification awarded after completing an undergraduate course between three years (full-time) up to seven years (part-time), e.g. Bachelor of Science or Bachelor of Fine Arts.

Associate degree

Two to five years

Shorter than a bachelor's degree (typically two years of full-time study or up to five years part-time equivalent).

Diploma

One year

One-year qualifications (full-time study or part-time equivalent) that are developed to be flexible and easily accessible. They can also lead to further learning at university.

Course

A program of study that leads to an award, e.g. the Bachelor of Education course. Courses are made up of individual units.

Unit

This is another word for subject. Within a unit, there are lectures, seminars, tutorials, and sometimes practicals, that cover a particular topic.

Major

The main focus of your degree. When you enrol, you'll choose an area that interests you, and then study a group of units related to that area.

Many degrees allow you to complete a second major as an elective, either from your course or other courses across the University.

Discipline

A field of related studies, e.g. the disciplines of physics, mathematics, or history.

School/Institute/Academic units

The names within our organisation structure for academic bodies that run courses and research in a certain topic. A School may sometimes be made up of one or more disciplines.

Full-time study load

When studying your degree, a full-time study load is typically eight standard units in semesters one and two of a calendar year.

Semester and Trimester

The University will adopt a new study periods model for 2026 which includes a core structure of two semesters and a trimester, each with 12 teaching weeks, with intensive winter, spring and summer periods available where needed. Each main teaching period has a consistent duration and structure, including 12 teaching weeks, a 1-week swot-vac period and a 2-week assessment period.

Undergraduate study

Study undertaken to gain an undergraduate certificate, diploma, associate degree, or bachelor's degree.

On-time applications

This is the date that applications for study close. If you apply later than this date, you may not get a place in your course.

Learn more at utas.edu.au/glossary

Choosing your course

Create your own study experience

University is about more than gaining the skills for a job. It should be a once-in-a-lifetime experience that changes the way you see the world. Our exciting, diverse courses allow you to embark on a journey as unique as you are.

More choice than ever

At the University of Tasmania, we give you the freedom to study your degree, your way.

We now offer more choice in your course content than ever before. You can choose to study a broad range of topics or focus on just a few. Either way, you'll graduate with a deeper knowledge and skill base that will see you thrive in your chosen career.

Unlike other universities, we don't have mandatory 'breadth' units. This means you'll only learn about the things you're really passionate about.

Accredited degrees

Some of our courses are subject to professional accreditation. This means that an external, professional body assesses the content and quality of the course to ensure it meets their standards. Students completing an accredited course may meet the academic requirements for membership of the professional body.

For full accreditation info, visit the online course page.

Combine your interests with a double degree

Our double degrees allow you to deepen your knowledge within two separate study areas. This means you can pursue career aspirations and follow a passion at the same time, combine complementary areas of study to set yourself apart as a graduate, or achieve a combination of qualifications that will save you time and tuition fees in the pursuit of your future career.

Use this guide to find out if your course is double degree compatible. Look for the  symbol.

If you can't find your double degree, please contact us and together we'll explore the possibilities or find some alternative options.

Learn more at utas.edu.au/double-degrees

Become career-ready

Studying with us, you'll gain real-world experience in your chosen industry. When the time comes to embark on your career, this gives you the competitive edge. In fact, more of our graduates enter the workforce with full-time roles and higher salaries.

Our students achieve career outcomes above the national average.

82.6% find full-time employment within four months of graduating.
National average 79.4%

90.2% are employed within four months of graduating.
National average 89.1%

\$78,300 median full-time salary within four months of graduating.
National average \$71,000

More reasons to study a double degree

Get more out of your time at uni.

Maximise your employability.

Build your own unique set of skills.

Study for your career and yourself.

► A double degree could allow you to study history or plant sciences.

Begin your university journey

1. Find a course

Browse our courses through our website.

View our courses online utas.edu.au/courses

Unlike other states, there is no charge to apply as a domestic student to the University of Tasmania.

You can apply for an early university offer meaning you can secure a place at university before finishing year 12.

For more information, please visit utas.edu.au/early-offer

2. Check dates and entry requirements

Key dates

Before you apply, it's important that you check the key admission dates. These will tell you when applications open, when semesters begin, and more.

Visit utas.edu.au/application-dates

Entry requirements

To be considered for entry into our courses, you need to meet specific requirements. You can check the entry requirements tab on your course page at utas.edu.au/courses for more details.

You also need to either have completed Australian Year 12 (or equivalent), or be aged 17 or older and be applying on the basis of your previous study or work experience.

For most of our courses, entry is based on your ATAR score or your rank, which is calculated based on your qualifications and experience. If you're unsure whether you meet the entry requirements, or if you are uncertain about your ATAR or rank, please contact course.info@utas.edu.au

3. Apply for up to five courses

Apply online for up to five courses at once. Unlike other states, there is no application fee for domestic students applying to the University of Tasmania. If you're applying for a course but unsure if you'll be successful, please contact our student advisers on 13 8827 (13 UTAS) or by emailing us at course.info@utas.edu.au

4. Apply for a scholarship

You don't need to be academically gifted to receive financial support for your study. We offer one of the most extensive ranges of scholarships in Australia, and we encourage everyone to apply.

Visit utas.edu.au/scholarships

5. Apply for accommodation

Our residential colleges have accommodation to suit every student's needs, from self-contained apartments to single rooms with shared kitchen facilities. We also offer plenty of financial support to keep rental costs affordable. This gives you access to a community designed to support your academic, social, and wellbeing needs – all on a student's budget.

Applying to one of our residential colleges is easy and can be done online.

Visit utas.edu.au/accommodation

6. Accept your offer

Once your application has been assessed, we'll notify you as to whether or not you've have been accepted. If you are accepted, simply follow the instructions in the offer letter to secure your place at university.

If you don't receive an offer, you can contact our friendly team at course.info@utas.edu.au or **13 8827 (13 UTAS)** for advice on alternative options for study.

7. Enrol and check eligibility for recognition for prior learning

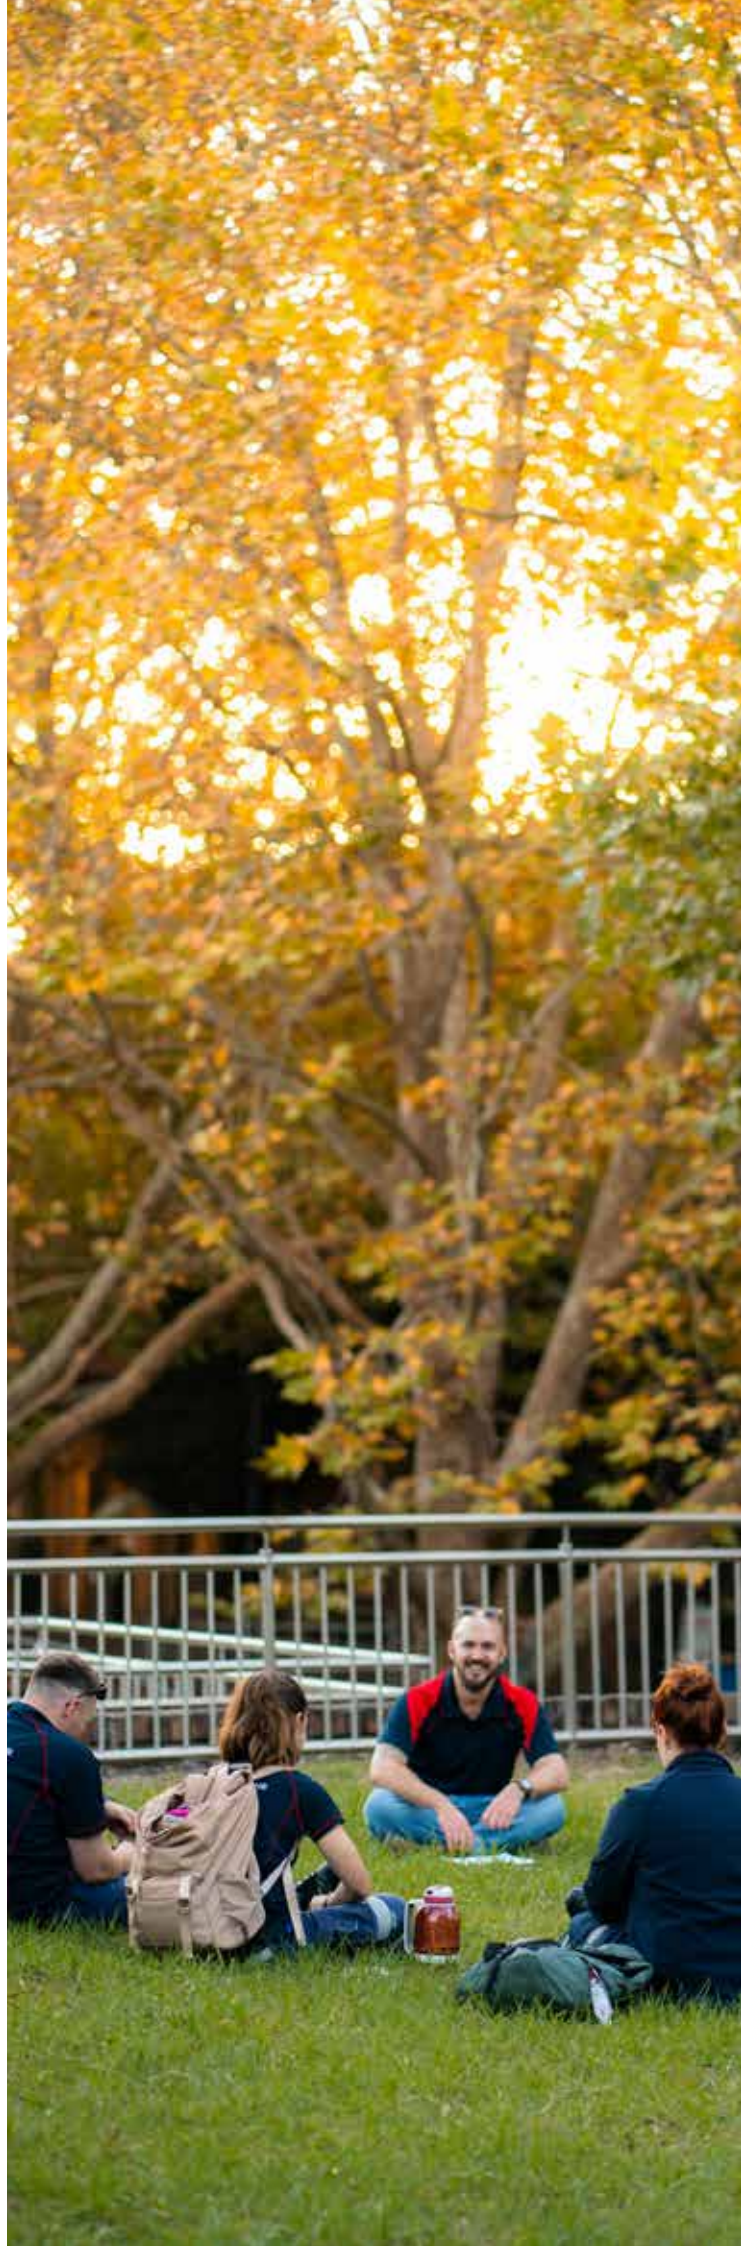

Our team can help you apply for credit when you enrol, and either accelerate through your degree or take on additional subjects to broaden your study program. For example, if you have completed a unit through the High Achievers Program or the University Connections Program, you may be eligible to receive credit.

Need more help?

We're here to help answer any specific questions or queries you have.

Book an appointment with our team by emailing: future.students@utas.edu.au
